

RIAI Simon Open Door 2011

In their 7th year of partnership, The Simon Communities of Ireland are delighted to announce that the RIAI Simon Open Door Initiative will be taking place this year on 7th and 8th May. Over the course of the tie up almost €235,000 has been raised for the

Simon Communities of Ireland and this simple scheme not only benefits the Simon Communities, but also members of the public. In return for a €50 donation, you will receive an hour long consultation with an RIAI Architect, who can give advice on a range of issues relating to your home, for example, building extensions, enhancing energy efficiency to reduce bills, maximizing natural light, storage tips and even building a new home. Every single cent raised goes towards the work of the Simon Communities of Ireland, to help those experiencing homelessness. There are Architects participating all over the country and you can sign up for an appointment with your local architect on either Saturday 7th or Sunday 8th May using the website www.simonopendoor.ie
